## WEDDING

BLACKLEY - WHITESIDE

Graciously and lovely in every detail was the wedding which was solemnized in the United Church Saturday, June 14th, when Miss Bernice White, only daughter of Mr. and Mrs. W. E. Whiteside of Strathmore, became the bride of Alex W. Blackley, youngest son of Mr. and Mrs. Blackley of Calgary. Rev. S. R. Hunt was the officiating clergyman.

The Church was effectively decorated for the occasion. Tall cornucopia-shaped baskets filled with deep pink peonies and purple iris, were placed at either side of the altar, while baskets and vases of garden flowers in the same shades on the piano and altar rail formed a pretty background. Guest pews were marked with large bows of white chiffon ribbon.

The bride made an exceedingly graceful and pretty picture as she proceeded up the aisle on the arm of her father, who gave her in marriage. She wore a gown of white silk, with a long length gown of white chiffon over white silk, with which were a waist length embroidered chiffon jacket, a three quarter length white skirt, and a white bolero with white sleeves. Her bouquet was a beautiful combination of Tallian roses and Freesia.

Miss Joyce Miller as bridesmaid wore a floor-length gown of pink chiffon over pink silk, a blue and pink bandeau on her hair, and pink lace mitts and white shoes. She carried a lovely bouquet of pink carnations and fern.

The groom was supported by Mr. Brian Gilbert.

Messrs. Duncan Gordon and Carl Sorenson were the ushers.

The wedding music was very beautiful, played by Miss Gerry Van Tighem. Before the ceremony and during the signing of the register, Mrs. Walter Mercer captured the hearts of all by her very fine rendering of "I Love You Truly" and "Because" accompanied by Miss Van Tighem at the piano. Many compliments were tendered to the two maidens.

Following the church ceremony the wedding party and guests numbering about 80 motored to the attractive home of the bride's parents, where the lovely lavas and gardens were the admiration of all present. The interior of the house was a bower of beautiful peonies, roses and carnations.

Receiving with the bride and groom were the bride's mother Mrs. Whiteside, Mrs. Blackley, the groom's mother, Mrs. Peterson, the bride's grand mother and Miss Joyce Miller and Mrs. Gilbert.

Following congratulations a choice buffet supper was served from a very attractive table centered with the 3 tier wedding cake and small vases of roses. Mrs. McNeill of Calgary and Mrs. Griffith did the honors at the Tea and Coffee urns.

Servitors who were girl friends of the bride comprised Mrs. Wilbur McNeill, Misses Vivian Clark and Helen Northcott of Calgary, and Misses Gladys Fessenden, Jean McGregor, Hazel Short, Jean Cornsack and Mrs. Ronnie Backhouse.

The toast to the bride was also proposed by Mrs. McNeill of Calgary who had the unique distinction of being the similar toast for the bride's mother on her wedding day.

The groom responded in like vein, warmly thanking the proposer of the toast and the friends generally for their kind wishes.

For her gown the bride wore the headpiece a Churchill Blue jersey suit, with top coat of beige, navy blue hat and matching accessories. They left by motor for the honeymoon and the honeymoon will be spent, and on their return will reside in the President Apartments, Calgary.

Mrs. Whiteside chose for her daughter's wedding a very becoming gown of Queen's Blue, with navy redingote and hat to match, and a corsage of Tallian roses.

Mrs. Blackley, mother of the groom wore a black and white figured crepe dress with black and a corsage of American Beauty roses.

The bride's bouquet was caught by Miss Elsie Sorenson.

A lovely array of presents testified to the esteem in which the bride is held.

## Victory Loan Sales have total amount of \$100,000, which means that Strathmore has almost doubled her quota of \$50,000.

## FACTS AND FIGURES OF CANADA AT WAR

More than 80,000 Canadian soldiers, sailors and airmen are now overseas. About 70,000 are soldiers. Canadians in the R.C.A.F. and the R.A.F. have so far accounted for about 200 enemy planes.

More than 800 Canadian soldiers, sailors and airmen have been listed as killed or missing since the outbreak of war.

When the war began, strength of the Canadian Navy was 12 ships and 3,000 men. Its strength is now 200 vessels and 12,000 men.

Canada has now about 185,000 men in the Active Army—volunteers recruited to serve anywhere—170,000 in the Reserves.

The Royal Canadian Air Force is over ten times as strong as it was at the outbreak of war. The number of men will be added to the Air Force during the present year.

The British Commonwealth Air Training Plan is operating 62 schools from coast to coast. Canada provides 80 per cent of the students.

Since the war began, British and Canadian governments have undertaken capital advances of \$425,000,000 to stimulate war industry in Canada.

Canada's shipbuilding programme involves an expenditure of about \$120,000,000. When war began, only 1,500 men were employed in Canadian shipyards. Now over 20,000 workers are employed in 17 major and 45 smaller yards.

Since the beginning of the war over 1500 aircraft have been produced in Canada. About 40 planes a week are now being turned out.

One Canadian factory will soon have the largest output of any automobile gun factory in the world.

Fourteen types of land and naval guns, including latest types of anti-aircraft and anti-tank guns, and ten types of mountings, are now being made or will soon be made in Canada.

The first naval gun mounting ever made in Canada has just successfully completed its firing trials. Regular deliveries to the British Admiralty begin this month.

Ten of Canada's nineteen chemical and explosive projects have been in production.

Small arms ammunition factories are producing tens of millions of rounds monthly.

Nine types of gun ammunition are being made in Canada at the rate of millions of rounds a year.

More than 100,000 army mechanical transport vehicles, made in Canada, have been delivered and are in service.

## Choir of United Church Entertains for Miss Jean McGregor

Following regular practice Tuesday evening held at the home of Rev. and Mrs. Hunt a very happy social evening was arranged.

Dr. Giffen arranged some novel contests which provoked very much merriment.

In a few complimentary comments Mr. Perry expressed the esteem in which Jean is held by the choir members, and concluded by wishing her very happy happiness for the future.

Mrs. Jean Hughes then presented Jean with a very dainty China Bridge Set in the Petit Point pattern.

Jean very graciously expressed her thanks. Delicious refreshments were served and a happy hour over the coffee cups enjoyed.

## Light of Learning Go Out

(Editorial From Ottawa Journal) The Rockefeller Foundation does—or tries to do—a world-wide work in public health, education, the sciences and the humanities. It has a total fund of some \$145,000,000, and last year spent \$8,544,000—spend it, despite the war, in 44 countries of Europe, Asia, Africa and America.

Reviewing the work of the Foundation for 1940 Mr. Raymond B. Fosdick, its president, writes sadly of these "unhappy days."

"In the shadows that are deepening over Europe," notes Mr. Fosdick, "the lights of learning are fading one by one."

"On the continent, as distinguished from Great Britain, the situation during the last year has rapidly deteriorated. January, 1941, finds a large number of universities and institutions closed, and many others working under conditions scarcely tolerable."

"As German forces have moved into one country after another a definite pattern has been followed in relation to the universities and other schools."

"Allowed at first to continue with their work, their teaching and student activities were closely supervised by the German authorities. The supervision involved an attempt to enforce a 'cultural program' similar to that imposed by the Nazis on German institutions."

"Where this attempt was resisted, frequently was the measure of repression adopted by the occupying authorities included the closing of the institutions, sending faculties to concentration camps, and the deportation of student demonstrators to the gas chambers and tanks."

In Czechoslovakia hundreds of students were imprisoned, and many were deported to Germany for forced labor. The German attitude toward Polish universities was one of contempt and suppression. In Holland, in Belgium, in Norway, there were arrests, deportations, disappearances. In Paris students who staged a demonstration were machine-gunned by the Germans.

"The condition of university life and standards on the continent," says Mr. Fosdick in summing up, "is now the subject of appaling reports."

"Reprinted for Distribution by Alberta Wheat Pool."

## Standard is again very greatly indebted to Mr. R. J. Stead, Superintendent Publicity and Information, National Parks, Ottawa, for the use of these beautiful pictures of Canada's Wonderland situated in the National Park and Western Canada's National Parks.

Almost at your door lie some of those marvelous haunts, that others travel thousands of miles to see. The thrill provided by the majestic grandeur of these alluring scenes constantly increases. Their enchantment, both from soul and soul and grows forever and forever."

Through Mr. Stead's kindness we again bring to you paper glimpses of these alluring scenes.

Plan your Summer Vacation to include some of them.

Pictures on pages four and five, after looking at these pictures, read the article "A Haven for Tourists," on another page.

## BRIDAL SHOWERS

A. Wright was the guest of honor at a shower held at the home of Mrs. Keeling Wednesday afternoon, hosts being Mrs. Keeling, Mrs. Isari and Mrs. H. Wright.

The house was very prettily decorated with spring flowers. Bingo was played on the lawn and the lucky winner was Mrs. Isari. A basket carried by Dorcas Isari.

Later in the afternoon Ruth Oldham and Dorcas Isari carried a pretty decorated basket of gifts to the guest of honor. After the gifts were opened Ada responded in a very appreciative manner for the lovely and useful gifts.

Tea was served with Mrs. Isari and Mrs. Keeling doing the honors. All the ladies wended their way home after a very enjoyable time.

Monday evening Miss M. Gordon and Miss May Smith were hostesses at a delightful arranged shower at the home of the former, when they entertained in honor of their co-chaper Miss Jean McGregor, whose marriage to Mr. Calvin Ross of Westminister, B. C. is an event of July 12th.

The house was artistically decorated with white and red streamers and white wedding bells, and a profusion of garden flowers occupying every space.

Original and amusing contests were arranged which created a very merry atmosphere from the first.

In a final word of good wishes, Mr. Shrimpton was the lucky winner. In answer to Miss Gerry Van Tighem as captain of one side won a choice bouquet.

Later an abundance of delicious refreshments were served. Mrs. McGregor and Mrs. Shrimpton doing the honors at a table centered with a "special" wedding cake flanked by four pink tapers in low silver sconces. After all had partaken freely Miss Gordon on behalf of the guests presented Jean with a very handsome linen table cloth in the tulip pattern with serviettes to match.

Jean expressed her thanks, but was overcome with genuine emotion which was more expressive than words.

"For She's a Jolly Good Fellow" was heartily sung, and the party finally wound homeward their several ways.

## TOWN COUNCIL HOLD REGULAR SESSION VERY ENTERTAINING

"The sun went down, an other stars came out," and nearly started to rain before the Council meeting, which started on Tuesday evening, was over, and the long agenda all wound up. Councilors shifted in their chairs, hitched them around, wound their watches and even looked at the calendar before they finally moved adjournment.

Chief of the items taking time was a list of estimates prepared for the ensuing year. Paring expenses to the bone, the Council budgeted for \$40,000, reducing the tax by one mill, but his was more than offset by the necessity of raising the social service tax by one mill and the school taxes by four mills. The School Board, explained the tax was passed this year, but they had needed a little extra, and tried to get by without raising the rate, and that this year there was no alternative. The rural school board, however, had no such problem.

## CARSELAND VERY ENTERTAINING RECITAL

The Recital given by the pupils of Miss Violet Hyde, A.T.C.M., L.R.S.M. on Friday last was of a very high class character. Over twenty pupils, including some from Strathmore, presented a floral cantata, entitled "The Wedding of the Snowdrop."

Mr. D. McKinnon, M.I.A. officiated as chairman.

There was a large and appreciative audience in which there were many Strathmore citizens.

The rise of the curtains was the signal for enthusiastic applause by the waiting audience as the pupils of Miss Hyde were on the stage all charmingly dressed in their varied costumes representing the guests of this festive occasion. The pupils ranged in ages from 5 to 15 or over and for most of the evening the audience was entertained by the various piano selections, including solos and duets; all of which led up to the important event named "The Wedding of the Snowdrop." The bride, Shirley Lintock was charmingly and appropriately dressed and the bridegroom, Jimmy Hughes, looked nothing in his appearance and attitude on this auspicious occasion.

Outstanding of course in appearance among the boy pupils, was Dick Mack, attired as a fully-qualified clergyman and who performed the wedding ceremony.

Following the recital Miss Hyde was the recipient of two beautiful bouquets from her pupils. She responded very graciously.

Following the recital, Mrs. Zerah Clagg officiated as the announcer all through the recital as well as contributing their selections on the piano.

The whole performance was deeply appreciated by the audience and Miss Hyde is to be congratulated on the success of her efforts. Each and every pupil showed signs of ability and progress in their performance at the piano. Well done everybody.

The following programme was given: Duet—Blue and Yellow Columbine (The Hens), Helen McKinnon and Zerah Clagg.

Blue Columbine, Helen McKinnon. Yellow Columbine, Zerah Clagg.

Wedding Guests—Hazel Clark, Cornsack. Violet—Violet Lugg. Sunflower—Ronnie McKinnon. Forget-Me-Not—Margaret Paterson. Lily—Lily Hansen. Tiger Lily—Lily Hansen. Daisy—Leona Field. Tulip—Margaret Paterson. Bluebell—Edna Hartell.

Blind Party—Duet—Sweetpeas and Dandelion—Maid of honor and groomsmen, Kathleen and Keith McKinnon.

Crosses—(Bridemaid)—Bernice Christensen. Dandelion—(Usher)—Douglas MacKinnon. Daffodil—(Bridemaid)—May Forbes. Dandelion—(Usher)—Ronnie McKinnon. Sweet-Pea—(Maid of honor)—Kathleen McKinnon. Dandelion—(Groomsmen)—Keith McKinnon.

Duet—Daffodil—Cecilia—May Forbes and Bernice Christensen. Dandelion—the Pulpit—(Minister)—Dick Mack.

Johnny Jump-Up—(The Groom)—Jimmy Mutch. Snowdrop—(The Bride)—Shirley Lintock.

Duet—Snowdrop and Johnny Jump-Up—Shirley Lintock, and Jimmy Mutch.

Final Chorus—God Save The King.

When a King puts his hand in the hand of God  
At the very gate of the year.  
Though the way may be dark and the foe abroad,  
What need his Empire fear?  
For the God of Hosts will guide us on through many a perilous hour,  
Though the way may lead by the way of the Cross,  
We are led by a mighty Power.  
We will come at last to a harbor safe when our hour of trial is o'er;  
If only his people will follow their King  
And turn to their God once more,  
How blessed the nation who follow the lead  
Of a King who walks with God;  
No weapon that's formed against them shall prosper,  
Whose feet are with righteousness shod.

## Under The Street Lamp

by P. E. (Pat) O'Hooley

Mrs. Galbraith: "I see now why it takes a man so long to shave."  
Howard: "Why?"  
Mrs. Galbraith: "He makes a lot of hideous faces and every face needs a separate shave."

Armstrong: "Do you know anything about flirting?"  
Holmes: "No, I thought did, but when I tried it, the girl married me."

A man of letters appeared recently at a Washington banquet. He sat next to a young lady with a vocabulary peculiar to young ladies, but who prattled away without interruption. During a lull in the conversation, she said, "I'm awfully stuck on Shakespeare. Don't you think he's too terribly interesting?"  
Everybody listened, for he had never seen Shakespeare. "Yes," he said solemnly, "I do think Shakespeare is interesting. I think he is more than that. I think Shakespeare is just simply too cute for anything."

Mr. McKenzie: "Now, I ask you, as a practical miner, which spade is the best?"  
Potter (accidentally): "Why, the ace of course."

Sharp: "Well, Scotty, do you feel proud of being an uncle?"  
Scotty: "No, cause I ain't no uncle."

"I'm an aunt. The new kid's a girl."

**SNUBBED IN HADES**

During a lull in the stygian flames

A group of shades were exchanging names.

And telling of places they had been.

With bits of gossip and tales of sin.

A lonely shade who was standing by

Approached to speak; but without reply

Each wrapped himself in his ghostly shawl.

Murderers, robbers and blackguards all—

With a whispered word and averted stare

Vanished and left him standing there.

"Who was he?" one asked as they turned and fled.

"He poisoned his neighbor's dog," they said.

**CHRISTIAN SCIENCE—**

"God the Preserver of Man" is the subject of the Lesson-Sermon at all Christian Science Churches on Sunday. The Golden Text is Deuteronomy 32:37. One of the Scriptural citations is "For who hath known the mind of the Lord? or who hath been his counsellor" (Romans 11:34). One of the correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, is "When man is governed by God, the ever-present Mind who understands all things, man knows that with God all things are possible" (p. 180).

## THE WEEK IN EDMONTON

### Daylight Saving in Alberta?

Edmonton city council is asking the Dominion Government to establish daylight saving time in Alberta. The reason—to permit one hour a day for the training of reserve soldiers. The recommendation came first from the by-laws committee. After slight amendment it was adopted by the council. Albertan Hisset moved an amendment to refer the matter to the Provincial Government first, but this was defeated. City solicitor claims the Dominion has power to establish the new time under the war measures act.

Not all citizens favor the new proposal. It is admitted that farmers find it to convenience, and a letter from Cyril G. Wates, past president of the Edmonton Branch, Royal Geological Society, urged that if daylight saving is to be instituted, it ought to be in winter and summer. "In mid-winter, when the days are shortest, we are wasting daylight more than at any time of the year," he said.

Originally the new time was wanted for Edmonton only, but it was pointed out this would be disruptive, and that only in the whole province could it be established. Firm supporter of the move is Ald. Lt.-Col. E.

Brown, commandant of the Edmonton garrison.

Edmonton district needs rain badly for two reasons; the first because crops are drying up, and the second because of the caterpillar invasion. Threatened for two years, now the plague of leaf-eating pests is wiping out the verdancy of many city garden spots, and is bringing dismay to hundreds of garden lovers whose home surroundings are being relentlessly decimated. The city area has not enjoyed rains which fell on surrounding country.

### Bank Charter Up Again

The Provincial Government is considering new steps to take in efforts to obtain a bank charter. It was announced by Premier Abernethy last week. Hon. Lucien Maynard and W. S. Gray, of the attorney-general's department, recently returned from Ottawa after unsuccessfully putting the case for such a charter before the banking and commerce committee. The premier said Alberta proposed to make any amendments necessary to comply with the law, and if there was doubt, to refer the bill to the supreme court of Canada. "This committee absolutely refused to consider. They were evidently determined the bill should not be sanctioned in any form, that would permit the people to enjoy the benefits arising from the control of their own credit."

It was truly written that a prophet is without honor in his country. Harry Snider, Russian-born Edmontonian whose prophecies have always been accurate, and who recently won fame because he foretold "the arrival of a great man from Germany in England"—meaning Hitler—has been out of city relief. Under the new farm home placement plan, Snider was offered a home at Jarvis. He refused to accept, saying his wife is ill and he wants his children educated in the city. New he is predicting that the war will end August 31 and that Hitler and three other dictators will be assassinated the following week.

### Summer Students & Accommodation

Summer school students will be accommodated at three different centres this year, some university buildings have been taken over by the department of National Defense. Stud-

ents will be attending King Edward School, Technical School and the university. A boarding house famous in progress, and apartments are being made to citizens to open up their homes for the summer term. Indications are that sufficient will do so.

Large Tourist Industry Predicted.  
Prediction that Alberta will enjoy a bigger and better tourist year has been made by George D. Hopper, of Winnipeg. U.S. consular-general in the prairies, who recently visited Edmonton. He said during a recent holiday in the U.S. he found people crossing the line into Canada in numbers, forerunners of many thousands in progress, and expects are being made to citizens to open up their homes for the summer term. Indications are that sufficient will do so.

Another thing about the whole deal that looks "fishy" is the fact that it has been shrouded in secrecy. Grain and shipping circles have known all about the deal for days and it is plain a definite effort was made to keep it quiet.

Possibly there are diplomatic reasons why this shipment was permitted, but the information given by the prime minister in the House of Commons doesn't suggest so.

A proposal was also made in Prime Minister King by E. W. Brunsten, secretary of the Alberta Federation of Agriculture.

The wheat was again brought up in the House of Commons, and E. E. Perley, member of parliament for Qu'Appelle, demanded a full parliamentary investigation into the whole grain handling business. He said there were certain things going on in the Winnipeg Grain Exchange, with which the Wheat Board had something to do, that will not stand an investigation.

Mr. Perley said Canadian exporters, James Richardson and Sons, Ltd., Grain and three others would have nothing to do with the recent wheat shipments to North China, and it was handled by "the Continental Grain Company, the Drexel Company and the Bunge Company, three international grain firms. The Bunge Company has since been changed to the Laval Company."

Mr. Perley said further the very fact that this grain was shipped in bags is evidence it is going either to Russia or through Russia to the enemy's hands. He said the Wheat Board should not sell wheat to firms that are not loyal to Canada.

Hon. J. A. MacKinnon, member of trade and commerce, intimated that the deal was perfectly legitimate and suggested it had the sanction of the British government. He said that there were phases that he could not very well discuss in the House of Commons, but expressed willingness to have the whole affair investigated by a parliamentary committee.

The incident has created something of a sensation throughout Canada, and many newspapers have protested editorially against the shipment of wheat to Japan.

Mrs. A. E. S. Warrington and children of Calgary spent the week end at the home of her parents Mr. and Mrs. S. F. Garriot.

We are very pleased to have Mrs. Warrington and her family here. We are very pleased to have Mrs. Warrington and her family here. We are very pleased to have Mrs. Warrington and her family here.

Mrs. Elmar Petersen is visiting her parents Mr. and Mrs. S. F. Garriot for a few days before joining her husband and his new work.

Pearl Patching, having just returned from attending the Farm Young Peoples' University Week held at Edmonton, reports a fine time as well as a very interesting and instructive week. Representatives attend from every part of the province, from even as far north as Beaver Lodge and Peace River.

The days were filled with various programs. The mornings were mostly taken up for the girls with lectures and demonstrations of Household Economics by Miss Patrick and staff. Interesting lectures were also given by Donald Cameron on Community Organization. Everyone was taken on tours of the various buildings including the Geological, Provincial and Industrial Laboratories and the Medical Building.

These tours were extremely interesting and instructive as everything was fully explained.

The afternoons were also taken up by Home Economics for the girls. Contests for Grain Judging, Handicrafts, etc. were conducted. Each evening something was planned for entertainment, such as a theatre party, public speaking contests, an Ukrainian program or movie pictures.

provided by the Dept. of Extension. A trip to the forestry station at Oliver was planned, also tours of the Canadian Packers Plant, the Northern Alberta Dairy and the Parliament Building.

A Field Day was held at which the Southern Part of the Province took the honors. As a grand finale, a banquet and dance was held. Everyone returned home, perhaps a little tired but happy after a perfect week.

Pearl attended all Farm Young People, who have the opportunity, to attend in future years.

Although this will be the last year it will be held in the University until after the war, since Pembina and Athabasca Halls are being taken over by the R. C. A. F., we are assured that the conference will not be discontinued.

## ARDENODE

Mrs. G. H. Godfrey entertained quite a number of guests Friday afternoon, in honor of Mrs. Beatrice of Rockyford.

Miss Elizabeth Lytle is enjoying a short holiday at present motoring through the country.

Mr. Bob Whyte will shortly be leaving on tour of the various buildings including the Geological, Provincial and Industrial Laboratories and the Medical Building.

These tours were extremely interesting and instructive as everything was fully explained.

## NAMAKA

There will be no Ladies Aid meeting in July. The next meeting will be at Mrs. Nellie Hansen's home on August 11th.

Mr. and Mrs. David Wanner and Mrs. Aron Williams are rejoicing over the arrival of baby boys June 2 and 9, at the Rosemary hospital.

Mr. C. H. Penner, teacher at the Namaka Farm School left yesterday for a position in Regina, Sask. Norman Laycraft is taking his place.

Eric Florance, agent of the A. P. Elevator at Strangmuir has joined the Air Force and his place is being filled by Peter Thiesen.

The National Grain Co. are making some changes. Jack Clifton is being transferred to Delta, and Ted Erickson is taking over here. We wish them both every success in their new locations.

We are very glad to report that Mrs. Lepp is home from the hospital and we hope she will soon be quite strong again.

There will be no Church Service in Namaka for the summer months. We hope as many as possible will attend at Strathmore.

## LANGDON

Mrs. E. Moe entertained twenty-five guests at a crystal shower on Saturday afternoon, honoring Miss Bertha McLeod whose marriage to Mr. Stanley Peterson will take place early in July. Mrs. G. A. Thubron of Red Deer assisted the bride to be with the gifts.

## A HAVEN FOR TOURISTS

Nowhere perhaps, have the attractions of Canada for summer tourists been more ably presented than in the following editorial printed recently in the Boston Daily Record, signed W. R. Hearst:

Not only in Mexico to the South of us, but in Canada to the North of us, are wonderful opportunities to spend delightfully the Summer vacation days that will soon be here.

From the West Coast of the United States it is easy and highly agreeable to reach Vancouver by sea or by train or by highway—and be welcomed to British Columbia.

On the East Coast it is a simple matter, and a physically and spiritually profitable one, to visit the charming

which were taken from a miniature farm house. Out of town guests were Mrs. J. P. McLeod, Mrs. H. L. Griffiths, Mrs. J. Salmon and Mrs. C. Craig, all of Calgary.

Congratulations to Mr. and Mrs. C. D. Peterson on the arrival of a baby girl on June 6th.

Misses Barbara Anderson, Joyce Anderson, Edith Hegley and Mary Bishop attended University week at Edmonton. Mary Bishop was the fortunate winner of the Silver Cup given for Field Sports in a competition between the North and South. These girls represented the Junior U. F. A. from Corbair.

"I will assemble here for man's enjoyment all the attractions of all other lands."

"Here let there be tall mountains wrapped in eternal snow, and warm, sunny valleys cooled in between."

"Here let there be long sinuous lakes wreathed in evergreen."

"Here let there be mighty rivers flowing through fertile and peaceful plains."

"Here let there be wonders, too, like high glaciers on steep mountain sides that cascade over tremendous precipices into snowy vales beneath, and let there be great, limpid pools that reflect the white mountains and the green forests and multiply their glories."

"And here let there be fish and game and waterways and highways to reach them."

"Friends, your columnist speaks the truth but cannot find words to tell all the truth."

Go and see for yourselves. Become acquainted with your neighbors in Canada and enjoy their friendship and the delights of their beautiful land."

## CANADIAN GIRLS ON THE JOB

Toronto.—The problem is not whether women can turn out a nifty machine gun—men admit they can—but how they keep their fingernails neatly manicured and brave with color when men get dirty up to their elbows.

That women can keep neat-fingered was noted by a group of American newspaperwomen touring a highly-guarded gun plant "somewhere near Toronto."

A year ago this plant—which in peace time specializes in heavy machinery—wouldn't even have thought of employing women.

The trip through the plant disclosed the women at work on various parts of the Bren gun, used by the infantry, and the Browning machine gun for aircraft.

Handling equipment and doing a job that must be accurate—in some instances to 1-10,000 of an inch—are girls just out of high school and young women.

They are in slacks and wear colorful bandanas around their heads—factory regulations.

The hands of many are drippy with oil—but their fingernails are brightly tinted and their noses well powdered.

Walter McLachlan, the works manager, praised the efficiency of the women.

They top men in patience, he said, and stand up better under dull routine. They are careful of materials and plant equipment. They are especially excellent on inspection jobs. They have fewer accidents than men. They learn quickly.

These employees work a nine-hour day, six days a week. They start at 30 cents an hour and get a five cent an hour raise after a month. After that they are paid according to their efficiency.

# Victory Loan Essay Winners

## WHY CANADA MUST BUY VICTORY BONDS

Save for Victory! This is the cry ringing in the ears of thousands of Canadians. This year Canada must raise one billion three hundred million dollars for war purposes. Part of this is raised by taxation but six hundred million dollars of this is to be raised by Victory Bonds.

Canada needs increased production in airplanes, tanks, guns, munitions, and hospital supplies. Our equipment is as good if not superior to that of Germany's. It is not quality that we are lacking but quantity. Besides these Canada needs money to buy airplanes, bombers and for training schools for her pilots. Every pilot must have at least six months training before he receives his wings. Airports are also needed. Across Canada there are sixty-six airports but these are not sufficient to carry on with the Empire Training Scheme. Canada needs money to make uniforms for her soldiers, sailors and airmen. Besides all these she needs money to strengthen her home defense.

Is there any danger of Canada being attacked by enemy powers? Yes there is. But how many Canadians realize this? How many of us wish to see our cities and towns bombed as London, Coventry and other towns in England have been. Not one of us! Living in a democracy we enjoy freedom of worship, freedom of speech, freedom of the press, freedom to choose our own Government Leaders and the right to vote by secret ballot. If Hitler were to invade and conquer Canada all these freedoms would be done away with.

How can we the people of Canada help? We can and we must help by investing in Victory Bonds. In this way we can show our loyalty to our armed forces and to our country. Canadians have done in the past. We can do it now. Our ancestors fought to gain a democracy for us. It is our duty to preserve it by loaning for Victory.

First—Betty Wilson, Grade IX, Age 15 years, St. Rita's School, Rockyford, Alberta.

## "VICTORY LOAN BONDS — SINEWS OF WAR"

On September 1st, 1939, after many quarrels and disputes, the storm clouds that had darkened the skies over Europe for many months broke, and the German war machine rolled into Poland. Two days later, Prime Minister Chamberlain announced that his country was at war with Germany. For four short weeks the smaller and poorer equipped Polish army fought bravely, but on one side was Germany, on the other Russia, both moving swiftly as possible, so as to capture as much of helpless Poland as she could, before the two armies met. Under these conditions, Poland was forced to surrender unconditionally on September 27, 1939.

The march of the German Panzer units from time on in sits fresh in our memories. Denmark, Norway, the Lowlands and France, mighty France, who scarcely twenty years before, had, after four years of bitter struggle, defeated Germany; were now suffering under the German heel. Alone stood England and the Dominion beyond the seas against the Ger-

## man and Italian armies.

On September 10th, only ten days after the first German set foot on Polish soil, Canada threw her lot in with the Mother Country. Soon recruits from all parts of the Dominion were arriving at recruiting depots applying for enlistment into Canada's fighting forces. Not many months passed before the late Minister of Finance, Norman Rogers announced plans for the first War Loan, with an objective of \$200,000,000. How well we remember the enthusiasm with which Canadians subscribed to it! Soon too, we heard of the First Division arriving in England. Noble young men, risking their lives to defend our freedom. This was the third time Canadians had left the home land to fight abroad. For England. The first time was the Boer War, the second time was in 1914, when Canadians went to France to fight for the freedom and peace we love so well.

Not many days after the drive for funds to wage war in 1940 was over, the plan for the sale of War Savings Stamps was announced. To this, too, did the population of Canada generously respond.

But, as recently announced by the Minister of Finance, J. L. Halsey, his was costing Canada four million dollars a day; and any wide awake and sensible Canadian can see that

## this amount can not be raised by direct taxation alone.

That is why Mr. Halsey announced recently plans for a drive, starting June 2nd and ending on June 22nd, with an objective of \$600,000,000. We wonder how such an amount of money could be spent in one year. Let me now outline some of the needs of Canada, in regards to her war effort, and how this money is to be spent.

Shortly after this terrible war began, it was announced that Canada was to be the centre of the mammoth Empire Air Training Plan. This necessitates the building of airports where student pilots might be trained. May I here state that it costs \$25,000 to train each young student to become a pilot. Let this fact "sink in" and you will realize where many millions are going. Hangars and barracks will cost much too. She needs training planes and bombers, she must train airmen, must help replace merchant ships sunk in the Battle of the Atlantic, she must have destroyers, corvettes, and patrol boats. Besides building these boats, she must train sailors to man them. She needs tanks, gun carriers, guns of all kinds, anti-aircraft equipment, shells and bombs.

Canada is no more; London, bombed, scarred, but undaunted presents a defiant and stirring challenge to the world. Democracy is standing firm against all forces which are threatening to plunge the world into a slough of ignorance and want. One by one the nations of Europe have been crushed under the iron heel of the Nazis — Austria, Czechoslovakia, Poland, Holland, Belgium, Denmark, France — until Great Britain, our Mother Country, is the last strong hold of Democracy in the Old World.

The Mother Country is setting for us the New World a stirring, inspiring example. Battered, unmercifully day after day, night after night, with thousands of loved ones lost, homes, cherished buildings blasted to bits, she is steadfast in her resolve to hold aloft the precious freedom of the world. Paying such a heavy price for the right to be free, is not easy, but Great Britain is not counting the cost, for civilization is at stake.

Canada, as in days of yore, has not failed to do her part in strengthening that challenge — she is sending to those noble people "the tools to finish the job." However, in order to keep the flow of the stream of war strong and steady, the Economic Resources, as well as the Man Power of our nation, is needed. Canada has never failed us — shall we fail now? Let us keep faith with the sons and daughters of Canada who have pledged themselves to service in the Army, Navy, Air Force and Medical Corps. Let us back them by buying Victory Bonds.

Canada, in making this reasonable request for Economic Resources is leaving it to us, the citizens of this vast dominion, whether Democracy shall or shall not survive. The choice is ours to make — let us make the only choice possible to a people who have governed themselves, not been governed. On one side we have Democracy — "government of the people, by the people, for the people." Education, Tolerance, Justice, Opportunity and those intangible qualities which penetrate so deeply into a man's soul. It is as priceless as the air we breathe, for without it we should suffocate, at least mentally and morally. If not physically. On the other hand is Dictatorship, which binds not only the body of man, but also the spirit and soul. The issues are clear and we know that Canada shall not fail.

Mr. Winston Churchill in a recent speech quoted these lines from Arthur Hugh Clough's poem, "Say not the Struggle Naught Availeth."

"And not by eastern winds only, When light comes, comes in the light: In front the sun climbs slow, how slowly! But westward, look, the land is bright!"

It is our opportunity to see that it shall always be bright: it is our opportunity to invest in our future, in Canada's future, in the future of civilization. Our precious freedom, the dignity of man, hangs in the balance. Victory is our goal; let us lend to our country until that goal is won!

Annex Macdonald, age 18 years, Grade XII, Strathmore High.

## ada will spend the money she realises from the Victory Bonds.

To close, I want to ask you, when asked to buy Bonds, to think of the poor folks in England who have lost their homes, children, happiness, in the war. They carry on. Surely, when they have given so much, we can happily give so little. Our prime minister, Mr. Mackenzie King said earlier this year, "your single contribution may seem very little, but when all is put together, it could, and will help weigh down the scales on the side of victory."

May I quote the man of the hour, Winston Churchill, who stated in one of his magnificent speeches—

"Give us the tools and we will finish the job."

Give, and give freely to these Bonds of Liberty, and give till it hurts.

James Lawrence Way, Age 15 years, Grade X, Strathmore High.

## "BUT WESTWARD, LOOK, THE LAND IS BRIGHT!"

Grit war, with all its horror, chaos and confusion, has once more stricken the world. Vienna no longer dances to its lulling waltzes; Paris is no longer gay; the glory that was Albion is no more; London, bombed, scarred, but undaunted presents a defiant and stirring challenge to the world. Democracy is standing firm against all forces which are threatening to plunge the world into a slough of ignorance and want. One by one the nations of Europe have been crushed under the iron heel of the Nazis — Austria, Czechoslovakia, Poland, Holland, Belgium, Denmark, France — until Great Britain, our Mother Country, is the last strong hold of Democracy in the Old World.

## MENNONITES GET ORDERS

### TOLD TO REPORT FOR 4 MONTHS ROAD WORK IN BASK.

Regina—Notices have been sent out approximately 150 Mennonites of the 21 year old group in Saskatchewan to report for four months labor service at Prince Albert National Park, Mr. Justice J. F. L. Embury, divisional chairman of the War Service Board, announced today.

The park project, consisting of fire-guard road construction will centre around four camps, the first of which will begin operations next Tuesday, Judge Embury said.

Operations will be under direct supervision of H. Knight, park superintendent.

In addition to the 150 Mennonites provisions will be made for about 50 conscientious objectors and other classes, other than Doukhobors.

## JAM FOR BRITAIN

Three hundred thousand pounds of Canada's fruits will be sent to Britain in the form of Jam by the Canadian Red Cross Society during the season of the summer of last season's jam project when the women of Ontario and British Columbia donated 125,000 pounds of fruit most of which was shipped overseas for British civilians and military hospitals. Women's church and club groups throughout the country have also offered their co-operation.

Great Britain has already signified that all the Jam that can be shipped will be greatly in demand since Jam is now rationed at one-half pound per person per month.

## Household Hints

By MRS. MARY MORTON

You will find that a picnic should be made in the last of the season, especially if you dress it up. It will give you good enough for a guest dinner.

Today's Menu

Chilled Tomato Juice Crackers  
Baked Picnic Shoulder Ham  
Scalloped Potatoes  
Cranberry Sauce or Jelly  
Hot Rolls  
Cabbage, Apple and Celery Salad

Baked Picnic Shoulder Ham  
Picnic shoulder 1 lb. brown sugar  
Cloves 1 lb. sweet

Put ham in kettle and cover with water. Simmer until done, allowing 1 1/2 hours of cooking per pound. Allow meat to cool in liquor, then take out, remove rind, score fat and slice down in 1/2 inch intervals. Rub with the brown sugar and put in roaster with the cider. Bake for one hour at 300 degrees F., basting with cider every 15 minutes.

Dale Fudding

1 lb. dates 1 lb. flour  
1 lb. nut meats 1/2 cup baking powder  
1 cup sugar 1/2 cup salt  
Grease a shallow pan. Wash dates, if not pitted, and seed and cut in small pieces, break nut meats coarsely mix with dates. Beat egg yolks well, add sugar gradually, beating in; mix flour with baking powder and air in mix mixture. Stir in dates and nut meats. Turn into greased pan and bake in 300 degree oven for 30 minutes. "Cool, and when serving cut in squares and serve with a dollop of whipped cream on each serving."

GILBERT AND SULLIVAN SERIES

Earlier this season the CBC announced that the summer program schedule would include several Gilbert and Sullivan hits, shortened for radio presentation. These are now to be given Monday evenings.

Listeners will be particularly interested to learn that the series will be performed under the direction of Geoffrey Waddington.

WILLIAM MORTON, Toronto tenor will be heard over CBC networks this week in a performance of Gilbert and Sullivan's "Pirates of Penzance," from Toronto, on Monday, June 23, at 8.00 p.m.

## HELP TO KEEP THE "FRONT LINE" AWAY FROM YOUR DOORSTEP

### Urge Your Menfolk to Buy Victory Bonds NOW

You can no longer depend upon the Atlantic Ocean for protection. Any day between breakfast time and noon, a bombing plane can fly from Greenland to our own Maritimes and Quebec—a mere matter of 5 hours; to Winnipeg in less than 9 hours, to Vancouver in 10 1/2 hours. From German-occupied France, bomb-laden planes can carry destruction to Toronto, Niagara, Ottawa and Montreal in less than 10 hours. Night and day, in the British Isles and on the sea, in and out of uniform, men defend your home from attack as surely as though they stood and fought at your own doorstep. Will you help to supply them with tools to carry on the fight—war fight? Will you help to make certain that there shall never be an "occupied" Canada?

Your Government needs some of your savings to buy more ships, planes and tanks—munitions of war that will hurry the return of our men to their homes, insure our way of life. Lend your money by buying Victory Bonds NOW!

The money you invest in Victory Bonds will come back to you with interest. Lend your money. We must win this war. Lend to preserve the things that money cannot buy. Urge your menfolk to protect your home by investing in Victory Bonds now. All that you hold dear is threatened.

## HOW TO BUY

Give your order to the canvasser who calls on you. Or place it in the hands of any branch of any bank, or give it to any trust company. Or send it to your local Victory Loan Headquarters. Bonds may be bought in denominations of \$50, \$100, \$500, \$1000 and larger. Canvasser, bank, trust company or your local Victory Loan Headquarters will be glad to give you every assistance in making out your order form.

## A MOTHER'S PRAYER

The first was when he'd reached age three;  
He grined at Dad — then said to me  
"I love you mother, all I can,  
Because today I am a man!"  
The years sped by — he was sixteen  
He'd brushed his hair into a shen;  
"To-night I dance with Mary Ann,  
Gee Whiz! I guess I am a man!"  
And then today—nineteen—no more;

## PAUL READING AT WASHINGTON

Washington—Appointment of a press-lation officer at the Canadian Legation is considered by Washington correspondents to be a step in the right direction. There long has been a need for someone at the Legation who can talk to newspaper men in their own language. The appointment of Paul Reading, a working newspaper man who has had previous experience in newspaper work in Washington and who, at the same time, knows Canada thoroughly should improve immeasurably the relations between the Legation and the newspapers.

The complaint against the Canadian Legation is that it follows too closely the Oxonian traditions of the well groomed young men of the British foreign office. A non-communistic, inveterate tinger with aloofness has caused many correspondents to shy away from the Canadian Legation. After all, there are many other and apparently friendlier sources of news in Washington.

Through Paul Reading it is hoped that not only will the United States newspapers be able to serve their readers better, but the pro-British and pro-Canadian newspapers — the great majority — will be able to further the great cause by being able to tell their readers more about Canada.

He came, a soldier, through my door—"I've joined," he called, "they've said I can—"  
Gee, Mum, I really am a man!"  
Cries out, "Dear God, protect my Boy!"  
—Faye Gould McLean.

## COTTON FLUFF AGAIN

THE season is here again when "doers of the word and hearers" are all alike very greatly annoyed by this annual menace to health, gardens and lawns, besides being a very dangerous fire trap. During the past year The C. P. R. Headquarters have removed a great many of those cotton producing trees from their grounds. The Town Council made a good start in clearing and cutting these trees on of the streets, and some individual citizens cut most of these trees from their lawns.

But unfortunately there are too many of our citizens who were indifferent and made no effort to eradicate this annoyance, and now by force of the wind the cotton fluff settles on the just and on the unjust, irrespective of their previous efforts to lessen this annoyance.

We believe the time will come when every citizen in Alberta towns and cities as we understand it is in some cities across the border will be compelled by law to remove these trees from their premises.

The Ash trees that were given gratis by the C. P. R. to anyone sufficiently interested to go for them, have a pretty leaf and in a few years will give good shade. Let Strathmore have the slogan—"No Summer Snow in Strathmore," and let us work to make it a reality in two years time. It would be a boon to coming generations.

## VICTORY LOAN 1941

STRATHMORE has again done her self proud going far over the

quota in her subscriptions to the Victory Loan. Four Pennants are now flying from the Flag Pole at the "Loan Office," with several days to go. Perhaps before the end we will see the quota doubled. We are proud of this record.

Canadians realize it takes money to build ships.

While doing their part this way, they will want a clear explanation of wheat being shipped from Vancouver, with questionable terminals.

The days are past when the rank and file of the common folk, so frequently heralded as the backbone of a country, will quietly submit to any such double dealing.

The "Common Folk" are reading and hearing radio broadcasts, as they were not fifty years ago.

## THE PRINTED WORD SENDS TO US THE FOLLOWING OPINIONS RE THE ST. LAWRENCE WATERWAY PROJECT

EXCERPTS from Editorials in Canadian Newspapers on the St. Lawrence Waterway Project.  
Brampton, Ont., Conservator, May 23, 1941—"The difficulties of financing, development and of maintenance will be such that Canada's right should be clearly determined once and for all by treaty and not be agreement. If there is not a sufficient unanimity of opinion in the United States to secure the necessary two-thirds majority for a treaty, then an agreement which may be open to question is very poor security for Canada."

Niagara Falls, Ont., Review, May 19, 1941—"It has been said that Canada's part in the construction will involve the employment of 15,000 men and it is strange to hear such a figure mentioned when there are shortages in the Canadian armed forces as well as in munitions factories. Undoubtedly if the project were to be put to a vote in Canada—particularly at this time—it would be soundly defeated."

Toronto, Ont., East York News, May 8, 1941—"In view of the present urgent demand for ships and war material, the St. Lawrence scheme cannot be regarded as a means of speeding up production and deliveries of these essentials of defence and victory."

Calgary, Alta., Herald, May 16, 1941—"Opposition to the waterways plan is many-sided, but when Mr. Roosevelt announced a few months ago that the project would be pressed to provide power for war industries, many critics were silenced, but only temporarily, when it was revealed that the development of power in the International Rapids section, the first step in the undertaking, could not be completed within three or four years."

## Canada Replacing Paris' Madame Martha

Madame Martha — do you know her? She belongs to Toronto, and is a Canadian designer of women's clothes. She has had her day in Paris, London, Italy and New York. Now she is back in Toronto, in association with Susan Wayne, Diana Thorne and Stephen Kent. This quartette of stylists have started a new business with name Fashion Creators of Canada: they have established in Toronto a designing house — to design bodies and lingerie, frocks, suits and gowns. Each of the four specialises in his or her individual line. Their creations will bear the label of the firm together with, below it, the name of the actual designer. Madame Martha, says stylist, is the only known designer to put her label on the outside of her models; she has signed her creations as a painter would sign his pictures — in a pocket, on a sack, under a collar, or any other place which lends itself.

## LETTER FROM JACK ISSARD

Writing from Niagara Falls, Jack Issard with the South Alberta Regiment gives some details of army life from his point of view. He states that the British Branch there is a very busy place supplying the troops with lots of good things to eat and drink. They are open from 10 a.m. to 11:30 p.m. and is a good place to have a good time when off duty. At present they are camped in a brass foundry a few minutes walk from the Falls, quite a nice spot, different to the place they landed at, Niagara on the Lake, 14 miles north. They are doing guard duty, 14 men to a post, there being 81 posts consisting of power plants, etc., and the Welland Canal. With 9 days on and 3 days leave it is pleasant but sometimes tiresome. Niagara on the Lake is a large camp, 25,000 troops concentrating there during the summer months. Niagara is a busy place, tourists coming in across the bridges in cars by the thousands every day. The Yanks are good sports, take us for car rides, and give us lots of cigs. They sure like Canadian beer and wine.

Just at present they are building a new bridge across the river connecting with the Queen Elizabeth highway to Toronto, an all cement road with four lanes of traffic each way, no stops, no gas stations. The crossroads are overhauled or subway. I was at Hamilton last week and took about orchards. All the 60 miles, you could see nothing but peach and cherry trees.

Have you any spare recruits? Our Brigade could handle 200 right now. We are under strength, and guess we will have to have some more. We need to make up our number. Got from Calgary last week. Things were a little tough last week. One of our corporals got shot in the leg while on guard duty by someone outside. Think we will be around here until fall.

Cherrio to all the boys.

## WORLD OF WHEAT

(By H. G. L. Strang)

Director—The Crop Testing Plan  
Mustard plants are bad weeds. The roots of the mustards are much more extensive than the roots of the wheat plant. The mustard plant never grows very high above the ground, and so its destruction is often neglected, but if farmers could see its great mass of roots going down five feet or more, and could see the vast quantity of precious moisture that a single mustard plant consumes, they would not rest until mustard was eliminated from their farms.

A good summerfallow will induce most of the mustard seeds in the top three inches of soil to germinate and grow, and then the plants can be cultivated and destroyed, but we must not forget the seeds that are in the bottom three inches and that cannot be killed until the land is again ploughed and these seeds brought up over the surface to germinate.

It takes, therefore, two good summerfallows, with a crop in between, to destroy all the mustard seeds in the top six inches of soil. The most important thing is to stop the plants from setting to seed, for each single plant may scatter over one hundred living seeds.

In recent years the chemical Cyanamid, applied as a dust, has been found to be most effective for destroying mustard.

## A Primitive Artist at Ten

As the ultimate in simplicity—or as a sample of primitive literature, as the highbrows call it—there is this essay by the Aberdeen boy of ten. It is reproduced from the current issue of Country Life in B. C. The lad was asked to write on Birds and Beasts and this is what he wrote—  
The Bird I am going to write about is the Owl. The Owl can see at all to the daytime, and at night is as blind as a Bat. I do not know much about the Owl, so I will go on to the Beast which I am going to choose. It is the Cow.

The Cow is a mammal and it is tame. It has six sides, right, left, fore, back, an upper and a below. At the back it has a tail on which hangs a brush. With this it scuds flies away so that they will not fall into the milk. The Head is for the purpose of growing horns, and so that the mouth can be somewhere. The Horns are to butt with. The Mouth is to moo with. Under the cow Hangs the milk. When people come the milk comes and when people do not come the milk does not come. How the cow does it I have not yet realised, but it makes more and more. The Cow has the sense of smell. One can smell it far away. This is the reason for the fresh

You Roll Them Better With  
**OGDEN'S FINE CUT**  
CIGARETTE TOBACCO

Message From  
Head Office

Ottawa, Canada, 1911 Victory Loan  
Bond and Stamp Office.  
There is a big demand in business for young women, trained in  
Secretarial work. Many young men have entered the army and their  
places can be filled only by young women or physically unfit  
young men.

Begin a Secretarial-Clerical course at once and prepare in this way  
to do your bit to win the war. The sooner you begin, the sooner you  
will be ready to earn. Forget holidays this summer; instead, begin a  
Secretarial-Clerical course as soon as school is over. In this time of  
crisis it is not too much to ask you to sacrifice your holidays. Just  
remember what the women of Britain are doing today and you will en-  
roll with us on July 2. School is open all summer.

There is an effort on the part of  
our Town Council and a number of  
our citizens to remove any features  
which detract from the appearance of  
our town.

The effort of the Council in plant-  
ing and watering Boulevard trees, al-  
though to their special care in the upkeep  
of the cemetery is very commendable,  
and we wish to extend merited praise  
to those who have been called to do so,  
however that the "Park Corner"  
which was undertaken about three  
years ago by the C. O. T. T. girls has  
now fallen into a state of neglect.  
This spot could be made such an at-  
tractive part of the approach to our  
Business Section that it is a pity to  
let it be neglected.

A hint to the interested.

W. M. S. MEETING

The regular meeting of the W.M.S.  
was held Tuesday at the home of Mrs.  
Bolsevaln.

The program took the form of a  
brief character impersonation, the  
portrayals and characters represented  
being: A. W. M. S. Press Secretary  
Visiting Trinidad (Mrs. McCrurray);  
a Trinidad missionary, Miss Archi-  
bold (Mrs. Way); another mission-  
ary, Miss Beattie (Mrs. Brown); and  
an East Indian girl also portrayed by  
Mrs. Rows. They presented the facts  
about Miss Archibald's valuable work  
in Trinidad which included evangel-  
ism teaching, social service, home  
making and the general influence in  
all round development for the people  
of that island.

She was first Principal of the Na-  
marina High School for girls.

After retiring Miss Archibald came  
to Canada, but so great was her love  
for Trinidad, that she returned to  
continue in her chosen field.

Mrs. MacLeod gave an able outline  
of Dr. Yohan Mauth's life, an Indian  
conrade in the World Church who is  
an outstanding and effective teacher  
and minister in India.

There are many farms in the  
prairie provinces so infested with  
personal weeds that eradication would  
cost more than the land is  
now worth. If we are not careful,  
there will be many more  
weeds delivered to any grain  
buyer of the line elevator company  
sponsoring this Agricultural Depart-  
ment will be forwarded to the  
Department of Agriculture for  
identification. Specimens may also  
be sent to Dominion Experimental  
Stations or Provincial Departments  
of Agriculture.

## A Message to Girls

There is a big demand in business for young women, trained in  
Secretarial work. Many young men have entered the army and their  
places can be filled only by young women or physically unfit  
young men.

Begin a Secretarial-Clerical course at once and prepare in this way  
to do your bit to win the war. The sooner you begin, the sooner you  
will be ready to earn. Forget holidays this summer; instead, begin a  
Secretarial-Clerical course as soon as school is over. In this time of  
crisis it is not too much to ask you to sacrifice your holidays. Just  
remember what the women of Britain are doing today and you will en-  
roll with us on July 2. School is open all summer.
